Rockrimmon Worship Center Update

Early Monday morning our facilities team opened the Worship Center building only to find a significant issue. During the early morning hours a water line in the Worship Center broke causing water to rise to 19 inches, flooding the entire lower level. We have spent the majority of the week meeting with Colorado Springs Utilities, plumbers, structural engineers, commercial cleanup firms and our insurance company. Obviously, this is a serious situation and we are working diligently with the right people to try and determine our next course of action. Activities that were scheduled for the lower level of the Worship Center will be evaluated and rescheduled as space allows.

Please be in prayer for our leadership as we formulate plans and make decisions to deal with this situation. Also, please remember our staff members – especially our worship team – whose offices and equipment were severely damaged.
